

## BROW TINT KIT

permanent colour  
for all skin types including sensitive

AVAILABLE IN THE FOLLOWING COLOURS •

Midnight Black • Dark Brown • Light Brown

### CONTENTS

- Brow Tint Sensitive 5 ml / 0.16 fl. oz
- Cream Developer 10 ml / 0.33 fl. oz
- Round bristle brush
- Mixing tray

### ADDITIONAL REQUIREMENTS

- Petroleum jelly or thick facial cream
- Cotton buds
- Cotton wool

### USEFUL TIPS

- Store your Julienne Brow Tint Kit Sensitive in a cool dark place as temperature fluctuations may affect product performance.
- For longer-lasting results, do not wash your brows for at least 8 hours after tinting.
- Be aware that products containing oils and hydroxy acids (e.g. glycolic and salicylic acids) will reduce the longevity of the tint.

## DIRECTIONS FOR USE

1. Cleanse brows thoroughly with a non-oily cleanser to remove any natural oils and make-up. This will ensure maximum absorption of the tint and its longevity.

2. Apply petroleum jelly or thick cream around the brows with a cotton bud to protect the skin. Avoid contact with the brows as this will prevent the tint from penetrating the brow hairs.

3. Pierce the tube nozzle with the inverted cap. Squeeze 1 cm of Julienne Brow Tint Sensitive into the mixing tray and add an equal amount of Cream Developer. Using the round bristle brush, mix thoroughly to a smooth, uniform paste.

4. Apply the mixture using the brush. Allow it to develop for 10 - 15 minutes, depending on the intensity of colour required. Remove with damp cotton wool. If a greater colour intensity is required, re-apply and allow it to develop further, not exceeding 20 minutes in total. Wipe off, removing all traces of the mixture. Discard any remaining mixture and rinse the tray and brush thoroughly before storing them for future use.

**NB: Use of Julienne Brow Tint Sensitive may temporarily stain the skin beneath the brows. This can last between 24 - 72 hours depending on the duration of the development time.**

### SAFETY INSTRUCTIONS & SPECIAL PRECAUTIONS

**Julienne Brow Tint Sensitive is dermatologically approved and is suitable for all skin types including sensitive.**

⚠ Hair colourants can cause severe allergic reactions. Ensure you read instructions before use and follow directions carefully.

- To determine any potential sensitivity to the ingredients, it is important to carry out a skin test 48 hours before application. Mix a small quantity as directed, apply a drop to the inner arm or behind the ear and spread it out. Leave for 10 minutes, then remove as per on-pack directions. If after 24 hours the skin remains calm and comfortable, continue with full application. As sensitivities and allergies can develop over time, this test must be repeated each time you use the product
- The formulation is p-phenylenediamine (PPD) free
- The Cream Developer contains hydrogen peroxide
- Temporary "black henna" tattoos may increase your risk of allergy
- Do not use if you have previously experienced a reaction to hair, lash/brow tinting products or temporary "black henna" tattoos
- Do not use on brows that have been plucked within the previous 72 hours
- Do not use if you have sore or irritated eyes
- Do not use if you have a rash on the face or sensitive, irritated or damaged scalp
- Avoid contact with eyes. If this occurs, flush immediately with cold tap water
- Wear protective gloves when working with the product
- This product is intended for the sole purpose of tinting brows
- Do not use to dye eyelashes
- As a permanent dye, Julienne Brow Tint Sensitive will stain porous surfaces - take suitable precautions to protect the skin, clothing and work surfaces
- This product is not intended for use on persons under the age of 16
- Keep out of reach of children

### FIRST AID

- In the event of a reaction during the application, rinse immediately with water and discontinue use.
- If the product comes into contact with the eyes, flush immediately with cold tap water.
- If swallowed, do not induce vomiting. Contact your doctor or a local Poisons Information Centre (🇿🇦: 0861 555 777, 🇦🇺: 13 11 26, 🇳🇿: 0800 764 766, 🇬🇧: 111).
